

GRASSIE MAKES THE ONLY FLOP

Vote On United States Senator Merely A Daily
Routine Of The Legislature.

MANY IMPORTANT MEASURES UP

Tracy Of Milwaukee Named As State Oil Inspector To
Succeed Mills--Other Legislation Being
Discussed.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., May 2.—The Wisconsin senatorial deadlock drags its slow length along with the daily ballots in the joint convention of the legislature and the caucus of the republican majority, without more incident than a daily change of vote by Assemblyman Grassie, who has now voted for Senator Hudson. Assemblyman Bancroft, Judge. Orton, John Barnes and Dr. Gordon, and who today went to Thomas H. Gill, a Milwaukee attorney and tax commissioner for the Wisconsin Central road.

The assembly, after a strong debate, voted 60 to 32 in favor of submitting to the people the question of holding a constitutional convention. Speaker Ekern and the socialists spoke in favor of the resolution, and Assemblymen Norcross, Cleary and Roeth against it, claiming that the constitution was an adequate instrument and was amended now with ample facility and ought not to be submitted to the hazard of a general overhauling. The argument that it could do no harm to allow the people to vote on the proposition prevailed.

The senate received from Gov. Davidson the appointment of E. L. Tracy of Milwaukee as state oil inspector in place of E. E. Mills of Burlington. The office pays about \$2,000 a year. The confirmation was held up until next Tuesday.

The senate concurred in the assembly bill to forbid the regent to charge any fees for attendance at the university law school.

Chicagoans are suspected of confederacy in the plot.

Fitz of Massachusetts, first vice-president general, presided at the opening, when Mrs. D. Phoenix Ingraham of New York, the president general, delivered her annual address. Two sessions were held during the day, devoted almost wholly to the opening formalities and to the reports from chapters of the society throughout the country. This evening the delegates are to be entertained at a banquet at the Fort Henry club. The convention will conclude its real business tomorrow, though the social program arranged for the entertainment of the visiting delegates will extend over several days to come.

Tugs and Life Boats Do Not Appear

Fated Vessel.

[BY ASSOCIATED PRESS.]
Deal, England, May 2.—A large German steamer is ashore on Goodwin sands and tugs and lifeboats have gone to the vessel's assistance. The steamer ashore on Goodwin sands has not been identified and is still fast. A heavy gale is blowing and the vessel is rolling heavily. It is doubtful if the tugs and life boats will be able to get along side of her. The German ship, Wilhelmmina also went ashore on Goodwin sands today but was subsequently afloat and proceeded. This led to the report that the first steamer had refloated and that she was named Wilhelmmina. The steamer has floated.

LADY SOMERSET TO LEAVE PUBLIC LIFE

Foremost of English Platform Re-
formers Must Cease Work to
Preserve Life.

[BY ASSOCIATED PRESS.]
London, May 2.—Before a large crowd at Bridgewater house today Lady Henry Somerset, the widely known reformer, delivered what will probably be her last address in public. The announcement was made by Lady Henry herself, who explained that the fatigue incident to the many calls upon her have impaired her health and that she has found it absolutely necessary to curtail her work. Though retiring from public life, Lady Henry will carry on her home at Duxhurst, where she will continue to live. She has been before the public for many years and is almost as well known in America as in England. An unhappy marriage led to a separation from her husband and she determined henceforth to give herself to social and religious work. Her first public meeting was a little gathering of villagers from her Easton estate, to whom she spoke a few earnest words for temperance, signing the pledge in their presence. From this beginning she developed into one of the most accomplished platform speakers amongst English women. The industrial colony founded by her at Duxhurst, in Surrey, is the pioneer institution of its kind. Women of all classes, suffering from alcoholism and there pleasant homes where amongst workrooms and gardens, poultry yards and dairies, they can forget the old influences which have dragged them down.

The association begins its twenty-second annual meeting here this evening. At the formal opening this evening Hon. James H. Neville is to welcome the delegates, for whom response will be made by J. Ed. Brown of Blue Mountain. The exchange of greetings will be followed by the annual address of President Cook of Columbus. Tomorrow morning the convention will begin business in earnest.

BIG MILITARY PAGEANT WITH STATUE UNVEILING

Army Of The Potomac Veterans Uncover Fig-
ure Of First Commander--Roose-
velt Orator Of The Day.

[SPECIAL TO THE GAZETTE.]
Washington, D. C., May 2.—Amid the enthusiastic demonstrations of a great concourse of people, the bronze equestrian statue of General George B. McClellan, the first commander of the Army of the Potomac, was unveiled today. Seldom has an event presented so many brilliant features of military pageantry.

The dedication exercises were preceded by a big military and naval parade in which all the regular troops in this vicinity, sailors and marines from the Washington navy yard, the national guard of the District of Columbia and a portion of the national guard of New Jersey participated. The regular troops included infantry, cavalry, and artillery from Washington barracks, Fort Washington, Fort Hunter and Fort Myer, with the headquarters band and three battalions of the 23d infantry from the Jamestown exposition.

The parade formed early in the afternoon and marched via 16th street and Columbia road to the intersection of Kalorama street and Columbia road where the column was halted during the dedicatory exercises, upon the conclusion of which the march was disbanded. Major General Bell had command of the troops, with Brigadier General Duval as chief of staff, and Capt. W. M. Wright as adjutant general.

The ceremony of unveiling occurred on the reservation on Connecticut avenue in front of the Highlands, where the massive figure of General McClellan had been erected. Surrounding the statue were great stands to accommodate the many officials and guests invited to take part in the exercises. The stands were hung with great folds of red, white and blue bunting. Within this amphitheatre were gathered representatives of every branch of the government, including the president of the United States and members of the cabinet, the chief justice and associate justices of the United States supreme court, senators and representatives and many of the high officials of the army and navy. Not less notable was the representation of the Society of the Army of the Potomac, whose thirty-seventh annual reunion is in progress here. The members of the society, with the widow and son of General McClellan, were the special guests of honor.

President Roosevelt and the members of the cabinet were escorted from the white house by a squad of cavalry. When the president arrived at the stand, the entire assemblage arose and greeted him with cheers. Capt. Henry C. Dwight of Hartford, Conn., president of the Society of the Army of the Potomac, delivered a brief introductory address and Gen. Horatio C. King of Brooklyn, recording secretary of the society, gave a sketch of the statue.

After an impressive invocation by Bishop Satterlee, President Roosevelt delivered the address of the day. He spoke in a strong voice and with great earnestness, pausing frequently at the outbursts of applause. As the president concluded his address, the flags enveloping the statue were released, and the massive bronze figure emerged through the folds of red, white and blue. At the same instant the boom of an artillery salute came from a battery of heavy guns near by, and the strains of the Star-Spangled Banner came from the Marine band. It was an inspiring moment, and led by President Roosevelt, the entire assemblage joined in cheering.

The unveiling was followed by addresses on the life and deeds of Gen. McClellan, delivered by Major-General Daniel B. Sickles, Major-General O. O. Howard and Major-General Grenville M. Dodge.

President Roosevelt made an honorary member of the Society of the Army of the Potomac at its thirty-seventh annual reunion here today. General N. M. Curtis of Ogdensburg, N. Y., was elected president.

WISCONSIN WEATHER FORECAST
Fair tonight and Friday, cooler to-night with frost; cooler east portion Friday.

WHAT IS NEWS?
During the civil war, and for many years after its close, Harper's Weekly was recognized as the great "national weekly". Its war maps and pictures secured and developed at liberal expense, gained a world-wide reputation, and have long been at a premium.

Its editorial page, under the management of George William Curtis, rang true, and the paper enjoyed great influence and popularity so long as Curtis was permitted to dictate its policy.

There came a time in its history, however, some 25 years ago, when the management became dyspeptic and critical. From a staunch supporter of the government and the dominant party with which the paper had been allied, it became a censor, and assumed the right of dictatorship.

The authority of government was assumed and public men, from the president all along down the line, were criticised and instructed, while public measures were freely denounced.

The people soon became disgusted; the paper lost caste as well as patronage and money, was soon in financial straits, and while not driven to the wall has never regained prestige.

The field, however, could not long remain unoccupied, and so the "Colliers," with unblinking assurance, jumped into the breach.

From a modest publication it forged to the front with a full-fledged mission, under the high sounding title of "Collier's National Weekly."

Like some of our governors, and latter-day reformers, the paper is busily engaged in regulating everything in sight.

The first three pages are devoted to wise editorials, and sage advice, for the benefit of the president, the senate, and public men in general. The last half dozen pages are conspicuous by pure reading matter surrounded by advertising which undoubtedly commands a good price. The "reading matter" is an echo of the editorial page, sandwiched in among automobile and pure food cuts for the benefit of patrons.

After exhausting the patent medicine field, the quack doctor, and various other calamities, the enterprising publishers have now turned their attention to the inland press, over which they assume a censorship.

The country publisher is accused of being a victim of fraud and misrepresentation, because he devotes space in his columns to a certain class of syndicated news, prepared at Washington, and other news centers, and sent out to this class of publishers, without expense.

"The nigger in the wood pile" has just been discovered by that great fountain of wisdom, the Collier of fice, and the railroads and other corporate interests are accused of supporting the news bureaus under discussion. This, of course, is a crime, and the innocent country publisher is made an unwitting accomplice.

But what about this self-righteous, self-appointed Collier outfit? What does it stand for, and what is it doing in the way of constructive work? It is a socialistic organ, pure and simple, advocating government and municipal ownership of public utilities, in sympathy with Dunne of Chicago, and every other visionary leader.

The inland press of the country is neither imbecile nor daffy. The syndicated news which it publishes is in accord with the sentiment entertained and expressed. It believes that the railroads have a right to a day in court, and it is not in sympathy with the socialistic propaganda exploited by Collier's and the latter day reformers.

democrat has been hiding around from pillar to post, trying to find a comfortable lodging place, but hasn't just struck it yet.

"The fellows that were democrats when the old folks died in 1896 because they wanted jobs, whether they ever had a dollar or not slipped over into the republican pasture, on the pretense that they were afraid of a 50-cent dollar. These fellows are now the bone and sinew of the republican party, holding a good percentage of the jobs. An element that came to the democracy by the whirlwinds that blew so vigorously from 1893 to 1896 have all drifted out again. Some went to socialism, some to populism, but the greater bulk have followed after the big stick. So that the democrats of today have dwindled down to the bunch that were always democrats, because their fathers were."

The railroad commission of Iowa will devote the next two years to an inventory of railroad property in the state. An effort will be made, on the part of the cities, to divorce terminal stations, and assess the equipment for the benefit of the towns where located. The same scheme is being attempted in Nebraska. It might be well for these wise railroad experts to remember that the roads of Iowa would be worthless without the great terminals in Chicago. The property of an interstate railway, which belongs to any particular state, is a difficult thing to determine.

The Civil Service commission of Illinois is in a fair way to retire from business. A budget of \$30,000 was presented for the next two years and cut down by the legislature to \$10,000. That's sensible reform. A state civil service commission is a farce and Wisconsin will do well to follow the example of the Sucker state. There may be some excuse for a barber's commission, if so the people should be advised, but there is no excuse for a civil service board.

The Minnesota legislature has been going for the railroads with a big stick. The new laws establish a two-cent fare and a cut in freight rates of about 10 per cent. The roads protested without avail, and the validity of the new laws will doubtless be tested in the courts. The overworked law makers also voted to double their salaries, and the governor comes in for a \$2,000 raise. The state stands close to the head of the procession in reform measures.

"Teddy Camels" in Egypt are as popular as "Teddy Bears" in this country. Travelers recently returned from that country, report that 10,000 camels in Egypt are named for the American president. There's a bunch of bulls and bears in Wall street that may be inclined to be jealous.

Governor Deneen of Illinois, is having the time of his life with an unruly legislature. Many of his reforms are hung up or slaughtered.

PRESS COMMENT

Saffron-Hued Humor.
Milwaukee Sentinel: Those "Teddy bear" cartoons in Harper's Weekly are insulting and indecent—blackguardly, not funny.

Reputation Lies a Bleeding.
Exchange: To have acquired the title of "Flapdoodle" Delmas, is also something to be charged well for in the bill.

The Small Boy's Latest.
Rockford Register Gazette: The outburst as pitched by Mathewson is occupying the serious attention of many small boys just now.

Deluded Being Actually Tolls.
Menasha Record: The Stoughton Hub insinuates that George Grassie is about the only man in the legislature that is a worker. Being a newspaper man he does not know any better.

Big Stick for Socialists.
El Paso Herald: "Rough rider Roosevelt's square deal does not extend to the socialists" is the plaintive wail of socialism rampant in Chicago. It will be found that his big stick extends that far and beyond.

Brander Matthews Rebuked.
Racine Journal: A prominent spelling reformer informs the people the plays of Shakespeare are unfitted for the modern stage, practically valueless. This is rather sad, as it had been supposed Shakespeare was not a bad sort of dramatist.

Nothing Chicagoesque Wanted.
Milwaukee News: A Chicago newspaper suggests that if Wisconsin cannot find a suitable senator it is at liberty to draw on Chicago. No, thank you, the stockyards smell when the wind is in the south, is all of Chicago that Wisconsin can stand.

Boosting the Favorite Son.
La Crosse Chronicle: On his merits Mr. Esch would have been chosen at any ballot that has been taken in out their latent defects. When this

the republican caucus within the past week. We believe that he will be nominated the moment the caucus leaves off playing politics and the caucus ought to do that now.

Bound to Die at the Guns.
Madison Democrat: The Janesville Gazette wants the candidates to get together and come to an agreement. The suggestion may have merit, but it is not human nature for men to consent to fall outside the breast-works, and yet the Gazette is right when it says that the contest is becoming somewhat monotonous.

Great Chance for Cut-Ups.
Oshkosh Northwestern: It is reported that women will act as policemen at Long Beach, Calif., during the coming summer. And if they are careful to select none but young and good looking women for this duty, it will be a fine stroke of business. Many of the boys will probably "cut up" just for the sake of being arrested by a pretty female "cop."

Modern Wastefulness.
Brookhead Register: No wonder lumber and paper are higher in price. The American people waste a good sized fortune every day in their wastefulness of packing boxes and old newspapers. The city dailies in their desire to swell their circulations print and send out to the newsdealers every day, several thousand more papers than there is a sale for, and the merchants of this city alone waste enough lumber in their packing cases to build a good sized house.

A Football Enthusiast.
Exchange: W. J. Clothier, the tennis champion of America, said at a dinner in Philadelphia:

"Tennis is all well in its way, but what is the excitement, what is the enthusiasm of tennis, compared to that of football?"

"Perhaps you have heard of that Pennsylvania guard who, coming to at the end of a football game, whispered to the physician bending over him:

"Did we win, doctor?"

"Yes, hands down," the physician answered.

"The guard flushed with joy.

"Never mind that fractured thigh, then, doc," he said. "Just take these broken teeth out of my mouth so's I can holler."

Wrecks and Bad Steel Rails.

Chicago Record-Herald: The decision of the American Railway association to say to the manufacturers of steel rails, that the product they are turning out is far from satisfactory and to demand that better material be used is of sufficient importance to arouse general public interest, if not general public apprehension. Without going into the question of whether or not the manufacturers have been living up to the rail specifications, it is sufficient to say that under present specifications too many unsafe rails are being manufactured and are being put where the impact of the heavy, modern, fast passenger train searches

is one of the hundreds of pleased people who have chosen Dr. Richards to do their dental work and do not regret it.

She was in to consult him recently and when leaving the office said: "I have heard so much about your doing painless dentistry that I was convinced there must be some truth about it. So I came to you."

"Am I sorry I came?"

"Well, I guess not."

"Now I have found out where to come I shall never have dental work done any other way."

"I never felt a bit of pain."

If Dr. Richards can so please others, he can do YOUR work without HURTING YOU.

CONTRACT TO BE LET NEXT WEEK

CHIEF ENGINEER FOR NEW RAILROAD YARDS NOW LOCATED HERE.

ADJOINING LAND WANTED

Land Department Representatives in City to Purchase Portions of John Reed and Maltby Farms.

Civil Engineer L. J. Putnam, who as chief construction engineer will direct the building of the Chicago & North-Western railway company's mammoth freight yard, engine house, shops and double track south of Janesville, arrived in the city yesterday afternoon and has taken up his office in the second floor of the passenger depot. Mr. Putnam has recently been acting engineer on the Ashland division and he has been given complete charge of the work to be done at South Janesville. For a few weeks he will divide his time between Janesville and Chicago and then permanently locate here, moving his wife and two children from Appleton.

Land-Buyer Here Today
There was another important development in the new yard proposition when Mr. Cleveland of the North-Western's land department arrived in the city at noon today. It was learned that his mission here was to purchase two pieces of land adjoining the three hundred acres that the road now owns. These parcels are portions of the John Reed and the Charles Maltby farms. The latter is known as the Ottumwa place.

Three Contractors Figuring
At present Mr. Putnam is engaged in securing bids on the new yards. He showed one contractor over the ground late yesterday afternoon and this afternoon he took two to the site. These builders are to be given plans and specifications on their return to Chicago and submit their bids immediately. The bids will be opened and the contract let some time next week. The instruments will call for the completion of the work within about five or six months and Mr. Putnam is of the opinion that work will be started before the first of June.

Five Miles Double Track
When interviewed at the Grand hotel at noon today Mr. Putnam briefly summed up the work that was to be done this year. He said: "We will double track from Janesville to a point about five miles south. The present Monterey bridge will remain and another will be constructed beside it."

"Will the bridge be built this summer?" was asked.
"It is hardly possible," he continued. "Orders for steel work must be filled within several months and it is probable that the second bridge will not be constructed until 1908."

"Twenty miles of sidings will be laid this year, extending over, but by no means covering, the entire track of land. In fact, that which will be laid this year will form a skeleton of the complete yards. By fall there will be room for eight hundred or more cars in the yards and within a few years the capacity will be thirty-two hundred cars."

Several Brick Buildings
"The engine house, which is to be of brick construction, will contain thirty stalls. This building will by no means complete a circle and is to be so built that at any time more stalls, up to the number of ten, can be added. Three or four other brick buildings will be erected. These will be machine shop, repair shop, office, storehouse, and so forth. There will also be a large coal station and water tank."

Much Car-Repairing Here
"The continual presence of hundreds of freight cars will necessitate much car-repairing. According to railroad plans there is light repairing and heavy repairing. Though only the former will be done here, much machinery and a large corps of workmen will be needed. Some idea of the amount of repairing that is to be done can be gained from the plans which call for a mile of bad order track."

Complete in Three Years
From Mr. Putnam's statements and what can be learned from local officials it is believed that the yards and equipment will be completed within two or three years and that work on the double tracking from Harvard to Evansville will be finished in a like period.

ON THE CHARGE OF RUNNING WINE ROOM

Warrant Was Served on T. S. Welch, Proprietor of the Silver Moon, Today.

Three girls, one of them under seven years of age, and a young man, who, it is alleged, were being served drinks in a stall or wine-room in the Silver Moon saloon at 12 North Main street, were escorted from the premises to City Marshal Appleby's office last evening. As the result of a conference held there, a warrant was issued for T. S. Welch, the proprietor, today, on the charge of violating the ordinance by serving drinks to divers persons in a wine-room in his establishment. He appeared in court this afternoon but was not ready to enter a plea of guilty or not guilty until after he should have consulted an attorney. His case was therefore adjourned until tomorrow morning at 10 o'clock.

The ordinance, which is alleged to have been violated in this case, was passed July 6, 1903, and approved by A. O. Wilson, the then mayor. The full text:

"The mayor and the Common Council do ordain as follows:
"Section I. All persons licensed by the Common Council of the city of Janesville to sell, vend, or deal in spirituous, vinous, or fermented liquors in the said city shall cause all inner rooms, apartments, or stalls erected or constructed in any rooms where such vending or dealing is licensed to be carried out to be removed within five days after the passage and publication of this ordinance."

"Section II. No person licensed by the Common Council of the city of Janesville to sell, vend, or deal in spirituous, vinous, or fermented liquors in the said city shall suffer or permit any inner room, apartment, or stall to be erected or constructed in any room where such vending is licensed to be carried on."

"Section III. Any person who shall violate any of the provisions of this ordinance shall pay a penalty of not more than \$50 nor less than \$25."

"Section IV. This ordinance shall take effect and be in force from and after its passage and publication, which publication shall be for three successive days."

APPLEBY NO LONGER UNDER THE COUNCIL

Legislature Passes Laws Which Place His Office Under the Fire and Police Commission.

Under the recent laws passed by the state legislature amending section 95-41 of the statutes of 1898, as amended by chapter 173 of the laws of 1899 is amended to read section 95-41, the control over the office of city marshal of the city of Janesville is taken directly out from the jurisdiction of the common council and placed entirely in the hands of the fire and police commission. The importance of this step is apparent when the fact that the council can not elect or displace any city marshal, chief of the fire department, policeman or fireman is realized. It means in plain words that the council from now on can have no influence on police matters. That the present city marshal, William H. Appleby, will retain his office during good behavior and that before he can be removed charges must be referred to the fire and police commission who will try him. The same is true of the chief of the fire department. In other words civil service rules are to be applied to Janesville and the days when the political pull of the aldermen was sufficient to allow few to violate the law with impunity is passed. Under the new laws the fire and police commission must consist of five persons, no more than three of the same political faith. At present Janesville has but four members of the commission and it is probable that Mayor Heddlas will make the appointment of the fifth member before Monday night as the law is explicit in saying they must be named before the first Monday in May.

LAST CONCERT WILL BE GIVEN MONDAY

The Apollo Club is Soon to Close its Year's Work.

The last concert of the Apollo club, closing the present season, will be given on Monday evening, May 6th, in the Carnegie Memorial Methodist church. At this concert, which promises to be the finest of the season's series, Mr. Carl Bruckner, cellist of the Thomas orchestra, will contribute several numbers to the program, while Mr. Frederick W. Carberry, tenor, will sing. Both these artists, although never before having appeared in Janesville, enjoy a national reputation in their respective fields of artistic endeavor.

In order that others than members of the club may enjoy the coming concert, the board of directors has decided that on payment of fifty cents for each guest, together with a duly signed guest card, each club member may bring a guest. Guest cards can be obtained from the secretary, Mr. C. P. Beers, 209 Jackson block, previous to the concert. No deviation from this rule will be allowed.

FELL WORK OF DOG POISONER

TWO VALUABLE PETS ARE DEAD AND TWO MAY DIE.

ON SOUTH MAIN STREET

William McVicar's Valuable Irish Setter and Kelle Boy's Scotch Collie Died in Agony.

Two valuable dogs owned by South Main street residents are dead and two more may not live as the result of the work of some cowardly miscreant in the backyards along that thoroughfare this morning. Several weeks ago the son of Mrs. Gertrude Kelle who resides at number 203, bought with his hard-earned savings a pure white registered Scotch collie pup. The handsome little creature was kept chained in the dooryard. He died in terrible agony of strychnine poisoning while still bound to his kennel, at half past ten o'clock this morning, and the dead carcass was discovered by the heart-broken little owner a few minutes after that. The manner in which this dog came to his death plainly shows that the work was deliberate and malicious; that the dispenser meant the poisoned meat for just the canine that got it; and that he was actuated by no motive of retaliation, inasmuch as this animal and all the others who were affected had never harmed a living being.

McVicar's Irish Setter Dead.
William McVicar left his home at number 280 at half past six o'clock this morning. His valuable Irish setter which had been in the house all night was let out at this time. The animal followed him for a ways and then disappeared in one of the yards on the other side of the street. Less than an hour afterward the poor creature died in convulsions in the court house park. When asked what value he placed on the animal, Mr. McVicar said: "I wouldn't have sold the dog at any price."

Shurtieff Terrier Poisoned.
Some time after ten o'clock the attention of the members of the Shurtieff family who reside at 207 was attracted to strange symptoms manifested by their fox terrier. They called Dr. Geo. D. Little and after making an examination the veterinarian declared that the dog had been poisoned. He administered an emetic and it is believed that the animal will recover.

Fisher's Dog Will Live.
About the same time it was discovered that the bull terrier owned by District Attorney John L. Fisher who resides at number 209 was afflicted in the same fashion and Dr. Little's services were again in requisition. It is believed that this animal, although very sick, will recover. The Fisher dog has been kept on his own premises and not allowed to run at large so that there could have been no justifiable motive in that case.

Owners Are Incensed.
The dog fanciers of the third ward are up in arms over this outrage and Janesville will not be a safe place for the perpetrator to tarry in if his identity is discovered. Thus far no suspicions are openly expressed. No effort will be spared to make the investigation as thorough as possible.

PERSONAL MENTION.

CLINTON CASES ARE SETTLED IN CLINTON

Druggists Who Sold Liquor Contrary to Law are to Pay Fines

Clinton, May 2.—The druggists who violated the state law and have been selling liquor to purchasers in violation of the state excise law, have agreed to plead guilty to the complaint if allowed to do so in the village. This was the result of a conference between the druggists and District Attorney Fisher last evening and Mr. Fisher agreed to drop out of the case and allow the village to reap the benefit from the fines which can be done under the statute if not a state offense. They appeared in court this afternoon and pleaded guilty and were fined forty dollars and costs each. The money was sadly needed by the town, as their treasury is empty and the payment of the new village board is soon to begin. The affair has caused considerable trouble for the new mayor, Mr. Dalton, and the solution is acceptable to all concerned. The complaint made against Dan Shimeall for violating the law relative to the wearing of a G. A. R. insignia is taken as a piece of spite work on the part of an individual who owes Shimeall considerable money and is not considered seriously by the citizens generally.

BASE BALL MEET AT CITY HALL TONIGHT

Madison State League Team Wants Game Here Sunday—Proposition Has Been Submitted to Public.

Henry Wendt, a member of the crack Janesville baseball team of several years ago and an enthusiast over the game, received a letter from Thos. Leahy of the Madison State League team this morning, asking for a game for Sunday. Mr. Wendt referred the letter to several devotees of the game and men who have attempted to gather a nine for the season and at the request of a "baseball mass meeting" has been called. It will be held at eight-fifteen o'clock tonight in the assembly room of the city hall. If there is a good attendance an effort to organize a Janesville club will be made and officers or a board of control will be elected. If the object can be accomplished the Madison challenge will be accepted and the Bower City team will open their season this Sunday afternoon. The Capital City leaguers are very anxious for the game as their grounds at Madison are not yet in condition for practice.

For fifty-two years the name Rock County Bank has been associated in the minds of the people of Janesville and its vicinity with stability, strength and honor.

Faithfulness and fair dealing have marked the history of this old bank and it is the ambition of the management to continue in the future to uphold the reputation earned in the past.

HAYWOOD, MOYER AND PETTIBONE MAKE STATEMENT.

KIDNAPED IN COLORADO

Complain of the Prejudice Exhibited by the Press, the President and Various Officials.

Boise, Idaho, May 2.—Clarence Darrow, of counsel for Messrs. Haywood, Moyer and Pettibone of the Western Federation of Miners, who are charged with complicity in the murder of former Gov. Steunenberg, Wednesday night issued a formal statement in behalf of the prisoners. It was anticipated that the statement would be a direct reply to President Roosevelt's "undesirable citizen" letter, but the statement is in reality a general one, and references to the president are to the former letters of the executive.

The statement follows: "We have been charged with killing ex-Gov. Steunenberg with a dynamite bomb. Our trial is to begin on the ninth of this month. The details of the assassination have been published broadcast throughout the civilized world for more than a year. During all this time the press of the country, especially of that section of Idaho where we will be placed on trial, has bitterly denounced us and the Western Federation of Miners, to which we belong. The most powerful interests of the country are seeking to take our lives.

Declare They Were Kidnaped. "We were not in Idaho for years before the crime was committed. Under the law we could not be extradited from Colorado. But in spite of this we were arrested on a perjured affidavit charging that we were in Idaho at the time of the commission of the crime and that we immediately fled from the state, and on this perjured affidavit, known to be false, the governors of the two states of Idaho and Colorado kidnaped us in the night time, refused us an interview with family, friends or counsel or a chance of appeal to the courts, and brought us on a special train a thousand miles from home and into a state and community systematically poisoned against us by newspapers and officials. We have been confined in jail for 14 months against our protest, and denied bail while constantly demanding a trial. Every effort has been made to teach the farmers, business men, workmen of the community that we are assassins and outlaws.

"After all this time our case is about to be reached, and the president of the United States, in no way interested officially or otherwise, sends two letters broadcast over the country charging us with guilt and crime. These are republished in every paper in the land, and especially every paper in Idaho.

Colorado Governor's "Venom." The governor of Colorado, a day or two later, adds his words of spite and venom to the president and says that we are not only guilty of the crime charged, but many others, too. While the president of the United States and the governor of Colorado are sending out their statement to compass our death, the judge of this county has brought a citizen before him for contempt on the charge that he tried to influence the mind of a prospective juror by saying that the state administration was trying to railroad us.

"If we are about to be tried in court, every law-abiding citizen, however great or humble, should do everything in his power to cool the passions of man, rather than add fuel to the flames. If we are to be thrown to the mob, the officers should at least open our prison doors and give us some chance to defend ourselves."

HURRICANE IN CAMPECHE.

Causes Great Property Loss and Death of Several Persons.

San Juan Batista, Campeche, May 2.—A hurricane of terrific violence swept over this district Tuesday night entailing great loss of property and the death of several persons. The cocoa groves for some distance up and down the coast are completely ruined, causing a loss of millions of dollars. Crops of various kinds were leveled to the ground and great trees in the forests were snapped like pipe-stems. It is feared there may have been heavy loss to shipping if the storm extended into the gulf.

The wind apparently started in the mountains and swept along the coast. Numerous houses were blown down.

Bishop Hare's Eye Removed. New York, May 2.—Bishop William Hobart Hare, of South Dakota, who has been in St. Luke's hospital suffering from a cancer of the right eye, had the eye removed Wednesday. The bishop is now rapidly recovering.

Columbus Strike Settled. Columbus, O., May 2.—The strike of ice handlers was settled at a conference Wednesday night, the men accepting an advance of 15 cents a day instead of 25 cents, which they demanded.

WOMEN TRAPPED BY FIRE

MORE THAN TWO SCORE HURT IN A CHICAGO BLAZE.

Patrons of Lunch Club, Thrown Into Panic, Leap from Windows and Fire Escapes.

Chicago, May 2.—More than two score men and women were injured in a fire which attacked a five-story building at 255 Wabash avenue at noon Wednesday.

The Story & Clark Piano company occupies the first floor of the building. The upper floors are used by the Lotus Lunch club, which caters almost exclusively to women patrons, and it was there the fire found most of its victims.

Women were assembling for their luncheon, and when the alarm of fire was sounded they became panic-stricken. The flames spread so rapidly that they reached the luncheon before the patrons had recovered from their first fright. Then the women rushed to the fire escapes and to the stairways, and many of them fell down the steps or dropped to the pavement, so great was their excitement.

Fifteen women were injured in falling from the fire escapes on the Wabash avenue side of the building, and were taken into the emergency hospital of A. M. Rothschild & Co.'s store. Several more leaped from windows in the second and third floors and suffered serious injuries.

It is supposed an explosion of natural gas in the basement started the fire.

COREY TO MARRY MISS GILMAN.

Actress Says the Wedding Will Take Place on May 13.

New York, May 2.—Miss Mabelle Gilman, who arrived here Wednesday from Paris on the Kaiser, Wilhelm der Grosse, said when seen concerning her reported marriage to William E. Corey, president of the United States Steel corporation: "I must refuse to discuss my personal affairs. However important you may regard it for me to gratify the curiosity of inquiring friends and strangers, I am afraid I cannot share your view. But I will so far depart from this resolution as to say that Mr. Corey and I will be married in this city on May 13 and both Mr. Corey's family and mine will be present. That is all."

HONEYMOON IS CLOUDED.

Groom Arrested for Trying to Ship Fish Out of Arkansas.

St. Louis, May 2.—D. Max Gregg, son of Col. H. H. Gregg, a wealthy mine owner of Joplin, Mo., here on his honeymoon, was arrested Wednesday on a charge of having attempted to ship four fish out of Arkansas. The warrant was issued by Justice L. B. Harris, of Newport, Ark., and sent to Chief of Police Greaney. Gregg admitted having caught four bass last Sunday at Newport, Ark., and attempting to ship them to his home. He was released on bond.

Vermont Slate Workers Strike.

Fair Haven, Vt., May 2.—Five hundred slate workers in the quarries of the New Haven district went on strike Wednesday. The men demand a nine-hour day, with the wages now paid them for ten hours. The mill workers also went out and practically all the quarries in the towns of Fair Haven, Castleton and Poutney are tied up.

MAY DAY MARKED BY SEVERAL STRIKES

SAN FRANCISCO IRON WORKERS WALK OUT OF SHOPS.

ARBITRATION PROPOSED

Los Angeles Teamsters and Pittsburg Machinists Quit—Violence Occurs in Paris Despite Police Precautions.

San Francisco, May 2.—Three thousand men engaged in the iron trades in this city and around the bay walked out of the shops Wednesday because their employers had refused an eight-hour day. The Union Iron Works, the Risdon Iron Works and 20 other shops are completely tied up. Twenty-seven shops granted to the men the eight-hour day, for which the fight is being waged, and ten per cent. of the union men in iron trades continued at work. An arbitration proposal has been made by the organization of employers, but the men will stay out pending its consideration. It will be a week before the various unions have met to pass upon it.

Los Angeles Teamsters Out.

Los Angeles, May 2.—What may prove to be a serious strike began Wednesday when 200 teamsters walked out. The men are drivers of two and four-horse teams. They demand an increase of wages and an open shop.

At present the men are being paid \$2.25 per day for two-horse wagons, \$2.50 per day for two-horse trucks, and three dollars per day for four-horse trucks. The employers are willing to concede a flat raise of 25 cents per day to the men, but decline to sign any further contracts with the union.

Pittsburg Machinists Quit Work.

Pittsburg, Pa., May 2.—The strike of the machinists went into effect Wednesday and over 1,000 men quit work. All the shops in the Pittsburg district except the Westinghouse Machine company are affected. The men are asking for a ten per cent. increase and shorter hours. This scale, however, has been paid for some time at the Westinghouse plant. All the other trades scales have been amicably adjusted.

Some Strikes in Canada.

Toronto, Ont., May 2.—Lathers, cab drivers, gliders and picture frame workers and marble cutters, to the number of about 600 altogether, are on strike in Toronto. They want more money and shorter hours.

Violence in Paris.

Paris, May 2.—The expectation that May day would pass off without violence was not realized. The day began in calm, but toward evening the working center in the vicinity of the trades unions' headquarters became the scene of serious disturbances, in which many persons were more or less injured. The stringent precautions taken by the authorities and the stern determination to repress disorders, however, brought tranquility before midnight.

The sum total of the day's operations was over 1,000 arrests, 20 persons, including policemen and citizens, badly injured, and a great number of persons suffering from contusions or from being trampled.

One of the gravest incidents recorded was during the afternoon when Jacob Law, a Russian, who is a naturalized American, from the top of an omnibus passing the Place de la Republique, cold-bloodedly fired five shots, by which two cuirassiers were wounded. The crowd attempted to lynch Law, who was dragged down from the omnibus. He was rescued by the police.

Police Attack the Mob.

Several other incidents occurred during which firearms were used. After a meeting at the labor exchange 5,000 men proceeded to the headquarters of the Labor Federation, hoisting the police meanwhile. Charges were made by the police and a woman fired the bullet striking a member of the bicycle patrol. The squad of police drew their sabers and revolvers and a lively melee followed, lasting half an hour. The police pressed the crowd from the Quai Jemmapes to the banks of St. Martin's canal, during which 200 arrests were made and many persons were hurt.

Later in the evening, in the Place de la Republique, the police, while arresting rioters, were surrounded by a threatening crowd, which attempted to rescue those taken into custody. Sabers were used freely.

Dispatches received at the ministry of the interior report calm everywhere in the provinces, the May day demonstrations being confined to

meetings and processions singing revolutionary songs.

Warsaw is Tied Up. Warsaw, Russian Poland, May 2.—The general strike ordered for May day here resulted in practically a complete tie-up of business and traffic. No meat or bread was available, no street cars or cabs appeared on the streets, no papers were printed, and the stores were closed.

Jewish Merchants Killed.

Warsaw, May 2.—Near Pabianice Tuesday night bandits attacked a carriage containing five Hebrew merchants, whom they shot and killed. The robbers took all the money and valuables of the dead men and threw their bodies into the river.

FAIL TO WIN LAHM CUP

BALLOONISTS END THEIR TRIP 130 MILES FROM ST. LOUIS.

Descend Near Golconda, Ill., After Being Carried Back and Forth by Air Currents.

Golconda, Ill., May 2.—Capt. C. DeF. Chandler, United States signal service, and J. C. McCoy, of New York, failed to break the long distance balloon record and to win the Lahm cup. The balloon, which left St. Louis at 7:20 Tuesday evening, landed five miles north of Golconda at 2:30 Wednesday afternoon.

To have won the Lahm cup the balloon would have had to go more than 402 miles. Golconda is only 130 miles from St. Louis.

Changeable air currents demonstrated to the aeronauts that they could not win the cup and for that reason they made the landing near here. The balloon made an easy landing. It was brought to Golconda in wagons.

Capt. Chandler made the trip for the purpose of making balloon observations for the United States army. He and McCoy, upon leaving St. Louis, hoped that the winds would carry them toward Washington, but the balloon took a southerly course immediately upon leaving the ground. It crossed the Mississippi river and continued southward near the river some distance, when it was driven back into Missouri. It then continued south until near the Arkansas line.

At noon Wednesday the balloon hovered over Cape Girardeau, Mo. A west wind there took it across to Illinois.

Just before crossing the river the ding rope struck a tree, impeding the progress of the balloon. Ballast was thrown out and the balloon rose to an altitude of two miles. The sun came out and it went still higher. It continued east into Indiana. Here an east wind struck the balloon, driving it into the clouds. Emerging from the clouds, the aeronauts found themselves over the Ohio river near Golconda. They then descended.

Amusements on Memorial Day.

La Crosse Leader Grows. The state senate has passed a resolution protesting against the holding of the Wisconsin-Syracuse regatta on Memorial day as a desecration of the day. Perhaps as the legislature holds the purse strings of the university, the action of the senate may cause a change of date. Yet it is virtually impossible to prevent people so disposed from fitting themselves on Memorial day in any orderly manner they see fit to adopt. Memorial day was established in honor of the union soldiers of the civil war. At first, a day of mourning for the dead, it became gradually a time to pay honor also to the living veterans of that titanic conflict until the double sentiment had finally been everywhere accepted. The day has been made a holiday in order that the deeds of the men who fought for the preservation of the republic may be recalled by a grateful people. In that spirit it is commemorated by a large number of citizens.

But there are others to whom Memorial day is simply a holiday, a day for out of door life, sports, picnics, drives and walks. They take advantage of a general suspension of weekly business, to enjoy themselves in their own way. They are too numerous to be sweepingly condemned, and as they do no harm, they are entitled to their own choice of manner of spending the day. It would be unprofitable to drag unwilling persons to a celebration of Memorial day, or to compel them to abstain from what ever plans for a quiet personal enjoyment of it they might have. The Wisconsin-Syracuse regatta is a semi-official function, as the former university is a state institution, and therefore the legislature may do well in attempting to suppress it, but so far as the habits of private citizens are concerned, it will be more charitable and accomplish as much to permit each to spend the day as he thinks best. The spirit of love and gratitude permeating a proper Memorial day celebration must be spontaneous; it cannot be forced.

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The following is known to medical science as the only reliable remedy for all the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the several schools of medical practice, have been suffering from biliousness and constipation. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Man Who Concealed Assets Found to Have "Financial Insanity."

Boston, May 2.—"Financial insanity" was the novel plea that Wednesday brought freedom to Harry E. Lane, formerly a prosperous business man, of Wakefield, who has been on trial in the United States circuit court for the past two days on the charge of criminally concealing his assets from his trustee in bankruptcy. Insanity experts testified that Lane was afflicted with a mania for spending money and that he had no idea where it went. After a brief deliberation the jury returned a verdict of not guilty. A motion of Assistant United States District Attorney Ham to commit Lane to an asylum was denied by Judge Dodge on the ground that the defendant was not legally insane.

A MAKER OF HISTORY

By E. PHILLIPS OPPENHEIM,
Author of "The Master Mummer," "A Prince of Sinners," "Mysterious Mr. Sabin," "Anna the Adventuress," Etc.

Copyright, 1905, 1906, by LITTLE, BROWN, and COMPANY.

Andrew shook his head doubtfully. "I think," he said, "that she was beginning to guess. Three months ago I should have spoken, but my trouble came. I didn't mean to tell you this, but perhaps it is as well that you should know. You can understand now what I am suffering. To think of her there alone almost maddens me."

Duncombe rose suddenly from his seat.

"Come out into the garden, Andrew," he said. "I feel stifled here."

His host rose and took Duncombe's arm. They passed out through the French window on to the gravel path which circled the cedar shaded lawn. A shower had fallen barely an hour since, and the air was full of a fresh, delicate fragrance. Birds were singing in the dripping trees; blackbirds were busy in the grass. The perfume from the wet lilac shrubs was a very dream of sweetness. Andrew pointed across a park which sloped down to the garden boundary.

"Up there among the elm trees, George," he said, "can you see a gleam of white? That is the hall, just to the left of the rookery."

Duncombe nodded.

"Yes," he said, "I can see it."

"Guy and she walked down so often after dinner," he said quietly. "I have stood here and watched them. Sometimes she came alone. What a long time ago that seems!"

Duncombe's grip upon his arm tightened.

"Andrew," he said, "I can't go!"

There was a short silence. Andrew stood quite still. All around them was the soft weeping of dripping shrubs. An odor of white from the walled rose garden floated down the air.

"I'm sorry, George. It's a lot to ask you, I know."

"It isn't that!"

Andrew turned his head toward his friend. The tone puzzled him.

"I don't understand."

"No wonder, old fellow. I don't understand myself."

There was another short silence. Andrew stood with his slightest eyes turned upon his friend, and Duncombe was looking up through the elm trees to the hall. "He was trying to fancy her as she must have appeared to this man who dwelt alone, talking down the meadow in the evening."

"No," he repeated softly, "I don't understand myself. You've known me for a long time, Andrew. You wouldn't write me down as altogether a sentimental ass, would you?"

"I should not, George. I should never even use the word 'sentimental' in connection with you."

Duncombe turned and faced him squarely. He laid his hands upon his friend's shoulders.

"Old man," he said, "here's the truth: So far as a man can be said to have lost his heart without rhyme or reason, I've lost mine to the girl of that picture."

Andrew drew a quick breath.

"Rubbish, George," he exclaimed.

"Why, you never saw her. You don't know her."

"It is quite true," Duncombe answered, "and yet I have seen her picture."

His friend laughed queerly.

"You, George Duncombe, in love with a picture! Stony hearted George we used to call you. I can't believe it. I can't take you seriously. It's all rot, you know, isn't it? It must be rot."

"It sounds like it," Duncombe answered quietly. "Put it this way, if you like: I have seen a picture of the woman whom if ever I meet I most surely shall love. What there is that speaks to me from that picture I do not know. You say that only life can

beget love. Then there is that in the picture which points beyond. You see, I have talked like this in an attempt to be honest. You have told me that you care for her. Therefore I have told you these strange things. Now do you wish me to go to Paris? For if you say yes I shall surely go."

Again Andrew laughed, and this time his mirth sounded more natural.

"Let me see," he said. "We drank Pontet Canet for dinner. You refused liqueurs, but I think you drank two glasses of port. George, what has come over you? What has stirred your slow-moving blood to fancies like these? Bah! We are playing with one another. Listen! For the sake of our friendship, George, I beg you to grant me this great favor—go to Paris tomorrow and help Phyllis!"

"You mean it?"

"God knows I do. If ever I took you seriously, George—if ever I feared to lose the woman I love—well, I should be a coward to rob her of help when she needs it so greatly for my own sake. Be her friend, George, and mine. For the rest the fates must provide!"

"The fates!" Duncombe answered.

"Aye, it seems to me that they have been busy about my head tonight! It is settled then. I will go!"

CHAPTER VI.

AT precisely half past 9 on the following evening, Duncombe, alighted from his petit voituré in the courtyard of the Grand hotel and, making his way into the office, engaged a room. And then he asked the question which a hundred times on the way over he had imagined himself asking. A man to whom nervousness in any shape was almost unknown, he found himself only able to control his voice and manner with the greatest difficulty. In a few moments he might see her.

"You have a young English lady—Miss Poynton—staying here, I believe," he said. "Can you tell me if she is in now?"

The clerk looked at him with sudden interest.

"Miss Poynton is staying here, sir," he said. "I do not believe that she is in just now. Will you wait one moment?"

He disappeared rapidly and was absent for several minutes. When he returned he came out into the reception hall.

"The manager would be much obliged if you would step into his office for a moment, sir," he said, confidentially.

"Will you come this way?"

Duncombe followed him into a small room behind the concourse. A gray haired man rose from his desk and saluted him courteously.

"Sir George Duncombe, I believe," he said. "Will you kindly take a seat?"

Duncombe did as he was asked. All the time he felt that the manager was scrutinizing him curiously.

"Your clerk," he said, "told me that you wished to speak to me."

"Exactly," the manager answered.

"You inquired when you came in for Miss Poynton. May I ask, are you a friend of hers?"

"I am here on behalf of her friends," Duncombe answered. "I have letters to her."

The manager bowed gravely.

"I trust," he said, "that you will soon have an opportunity to deliver them. We are not, of course, responsible in any way for the conduct or doings of our clients here, but I am bound to say that both the young people of the name you mention have been the cause of much anxiety to us."

"What do you mean?" Duncombe asked quickly.

"Mr. Guy Poynton," the manager continued, "arrived here about three weeks ago and took a room for himself and one for his sister, who was to arrive on the following day. He went out that same evening and has never since returned. Of that fact you are no doubt aware."

Duncombe nodded impatiently.

"Yes," he said, "that is why I am here."

"His sister arrived on the following day and was naturally very distressed. We did all that we could for her. We put her in the way of communicating with the police and the embassy here, and we gave her every assistance that was possible. Four nights ago mademoiselle went out late. Since then we have seen nothing of her. Mademoiselle also has disappeared."

Duncombe sprang to his feet. He was suddenly pale.

"Good God!" he exclaimed. "Four nights ago! She went out alone, you say?"

"How else? She had no friends here. Once or twice at my suggestion she has taken one of our guides with her, but she discontinued this as she fancied that it made her conspicuous. She was all the time going around to places, making inquiries about her brother."

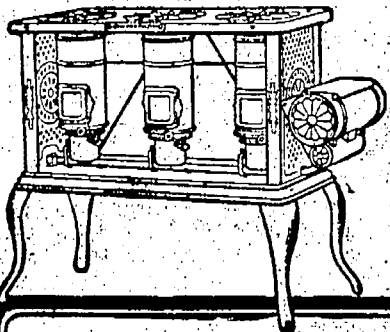

Duncombe felt himself suddenly precipitated into a new world—a night-mare of horrors. He was no stranger in the city, and grim possibilities unfolded themselves before his eyes. Four nights ago!

"You have sent—to the police?"

"Naturally, but in Paris—monsieur must excuse me if I speak plainly—a disappearance of this sort is never regarded seriously by them. You know the life here, without doubt. Your account proves that you are well acquainted with the city. No doubt their conclusions are based upon direct observation and in most cases are cor-

If It's Neuralgia

and those sharp, shooting, agonizing pains drive you almost crazy, take Dr. Miles' Anti-Pain Pills, and get relief. They drive out the pain by their soothing effect upon the nerves. When taken as directed they are harmless, and leave no bad after-effects. That's the reason they are so popular with all who use them. Your druggist can tell you what others in your locality think of them.

"I do positively think that Dr. Miles' Anti-Pain Pills are the best medicine ever put upon the market. I find them so restful and soothing, and without any bad after-effects. I have suffered with neuralgia so that my system would just ache and quiver, and I cannot take opiates, but I can take these tablets, and they always relieve me. No one that suffers with neuralgia need fear to take them as I know they will not form a habit for if there was any opiate in them I could not take them. Just one in the morning when I feel bad and I can do my work all day."

Woeeful Misinterpretation.

That the effect of a choice and appropriate phrase is sometimes lost and oftentimes woefully misinterpreted is well illustrated in an incident connected with the death of a Virginia lawyer.
